

NIH PAIN

SPECIAL INTEREST GROUP

Note locations per date

11:00 a.m.

**For more info, see
nccih.nih.gov/research/intramural/sig**

Cajal Legacy. Instituto Cajal (CSIO), Madrid.

OCTOBER 7 2015 BLDG 40 RM 1201/1203

Dynamic regulation of spatial aspects of pain

Robert Coghill, PhD

Director of Research & Senior Scientist
Department of Anesthesiology
Cincinnati Children's Hospital

NOVEMBER 3 2015 BLDG 50 RM 1328/1334

Optogenetics, electrophysiology, and behavior: a combined approach to study the neural circuits of pain and itch

Sarah Elizabeth Ross, PhD

Assistant Professor, Department of Neurobiology
University of Pittsburgh

DECEMBER 1 2015 BLDG 35A RM 640

Mapping the spinal circuits that process noxious and innocuous stimuli

Martyn Goulding, PhD

Frederick and Joanne Mitchell Chair
Molecular Neurobiology Laboratory
The Salk Institute for Biological Studies, San Diego

JANUARY 5 2016 BLDG 35A RM 640

How does the brain represent pain? Insight from the new concepts of a dynamic pain connectome and the pain switch

Karen Davis, PhD

Professor, Department of Surgery and Institute of Medical Science
University of Toronto

Senior Scientist & Division Head,
Toronto Western Research Institute

FEBRUARY 2 2016 BLDG 40 RM 1201/1203

Making novel pain drugs by selectively targeting Nav1.7 channels with compounds that bind directly to the S4 voltage-sensor

David Hackos, PhD

Department of Neuroscience
Genentech, Inc.

MARCH 1 2016 BLDG 35A RM 640

A motivation-decision model

Howard Fields, PhD

Professor
Director Wheeler Center for the Neurobiology of Addiction
UCSF

APRIL 5 2016 BLDG 40 RM 1201/1203

Modeling nociception in zebrafish, from development to function

Ajay Dhaka, PhD

Assistant Professor,
Department of Biological Structure
University of Washington

MAY 3 2016 BLDG 40 RM 1201/1203

Dissecting GPCR signaling and neural circuits in stress behaviors

Michael Bruchas, PhD

Associate Professor
Departments of Anesthesiology
Neurobiology
Washington University

National Center for
Complementary and
Integrative Health
