

# Do you have fibromyalgia?

The National Center for Complementary and Integrative Health (NCCIH) seeks people with fibromyalgia to participate in a MRI study exploring how the brain responds to painful stimulations. All study-related tests are provided at no cost. Compensation will be provided.

## You may be eligible if you:

- Are 18 years or older
- Have fibromyalgia

## You may not be eligible if you:

- Have any other significant medical condition, such as kidney, liver, cardiovascular, neurological, or a current psychiatric condition
- Are pregnant or breast-feeding
- Are a smoker
- Have metal implants
- Have taken opioids in the last 30 days

## Study involves:

- One screening and two testing visits
- Psychological questionnaires
- One MRI scan
- Short heat pulses given to lower leg

**Location:** The NIH Clinical Center, America's research hospital, in Bethesda, Maryland, on the Metro red line (Medical Center stop).
